The 21-day challenge will consist of noting 3 things that I am grateful for, one positive thing that occurred recently, and sending a thank you message out to someone in my support group, and at least 5 minutes of meditation a day. The written component will be posted to a blog or sent out as email. This is not about a simple roll in the hay but attempting to actually find someone you want to bang for awhile plus all that other jazz. Gumption is the biggest thing you'll need. Other supplies include: self-compassion, patience, and humor. Also you may need money if you opt to pay for a subscription. Sign up at one of the kazillion websites for online dating: match, okcupid, jdate, plenty of fish, farmers only, etc for 3 months (minimum). To earn this badge you need to actively participate during these three months by: sending 3 messages each week, giving a daily wink/nudge/thumbs up/3-4 star rating or whatever passive way the site offers to show interest, and going on one date (minimum). Take notes of your work and present it at a Badgers meeting or as part of the weekly Badger update. Maybe even include pictures of each candidate that you took on the sly!

ACTIVITY	BUILD A COMPUTER
DEWEY CLASS	621.3916

BADGE QUALIFICATIONS:	
To do:	Construct a desktop computer from scratch with components that you have sourced yourself i.e. integrate a case, CPU, motherboard, power supply, storage, etc. The impetus: I need a new personal PC and I'm willing to forego the portability of a laptop for the increased computing power and flexibility of a desktop. Also I am frugal and know it is cheaper to build source and build yourself than buy a pre-built system. You can do this by yourself or as a team, but the computer must be completely built from scratch (you don't have to build monitor, keyboard, or mouse... just the box). It must not blow up when you turn it on i.e. boot up and get to an operating system of some kind. Expectation is this activity can range anywhere from $100 to $1000 depending on quality/performance of components you are sourcing + cost of operating system. I am assuming you will be purchasing a legit copy of an operating system.

ACTIVITY	DIETARY ROULETTE
DEWEY CLASS	631.208

BADGE QUALIFICATIONS:	
To do:	Try at least 4 different diets for at least 2 weeks each. Take a break of at least one week in between. Ideally, diets will be fairly different from each other, not just variations on a theme (e.g.: Atkins & paleo & keto are all very similar), unless you specifically want to better understand those variations. Bonus points for throwing in a fad diet (ex: blood type or hypnosis). If possible, choose your four diets ahead of time, so you'll be better prepared, both mentally and in terms of food planning. Good luck! This is more of an awareness exercise than an actual attempt at dieting. It is to better understand dieting culture, and how it feels to adjust your normal intake by adding or removing certain types of foods.

ACTIVITY	CAPSULE WARDROBE
DEWEY CLASS	646.34

BADGE QUALIFICATIONS:	
To do:	The definition of a capsule wardrobe varies from source to source, but the concept is consistent: reduce wardrobe to a limited number of items that you can mix and match to create several great seasonal ensembles. I am using the planner from Unfancy (http://www.un-fancy.com/capsule-wardrobe-101/free-wardrobe-planner/) to create a seasonal wardrobe of 37-ish pieces and help me shop smart for what I need. Theoretically, you don't need anything, but a planner helps. You may need to buy/replace items. You may need to get rid of things. Wardrobe should consist of 10-50 items. Wardrobe should be seasonally appropriate - and you have to really work it. Photograph your items and the outfits you create. Socks, undergarments, pajamas, loungewear and special occasion pieces (like your go-to cocktail dress) don't count. The capsule wardrobe is for everyday clothes. Bonus points if you include hats, shoes, belts, purses, scarves, neckties, coats, and the like in your total # of items count. You don't have to. The planner from Unfancy is great, but there are others out there, like Project333 (http://bemorewithless.com/project-333/). Find one that works for you.

ACTIVITY	MAKE IT SO
DEWEY CLASS	650.11

BADGE QUALIFICATIONS:

To do: Not to steal a slogan, but identify a project that you've been putting off for wayyyy too long and just DO it! Get it together! Wrap it up! Make it happen! Carpe Diem! Git 'er done! No-crastination!

This will be something that probably isn't typically badge-oriented, but you still really need to do it. Finish that one book, maybe. Paint that stupid wall. Pony up and get that new tool. Must be something you've been procrastinating about for at least, say, a year.

From Night Thoughts, by Edward Young:
"Be wise today; 'tis madness to defer. ...
Procrastination is the thief of time. ...
At thirty, man suspects himself a fool;
Knows it at forty, and reforms his plan;
At fifty chides his infamous delay,
Pushes his prudent purpose to resolve;
In all the magnanimity of thought
Resolves, and re-resolves; then dies the same."
